PERFUSION PUMP ORDER SPECIFICATION FORM

Customer:	**Date:**
	Tel :
Address:	**Fax :**
	Email :

STANDARD PUMP CONFIGURATION includes:

- ☑ Water Reservoir 1000 ml (1 unit)
- ☑ Standard Resistors (equal to the # of water channels)
- ☑ Blue Plastic Pinch Clamps
- ☑ Spare Parts Kit
- ☑ Standard Low Pressure Regulator
- ☑ **MK III Only:** - Standard Mounting Plate
  - Dish & Hoop

Please **check each box that applies to you**, and provide any additional information, if needed.

Pump Model:	Mark II Low (Table Top)	❑ Air Comp. ❑ Wall	Mark II High (Table Top for Bottle) *High pressure regulator required	❑ Air Bottle* ❑ Wall	Mark III (Pole Mount) - with dish/hoop	❑ Air Comp. ❑ Air Bottle* ❑ Wall	
No. of Water Channels:	❑ 8		❑ 12		❑ 16		❑ 21
Transducer Bar:	❑ PVB		❑ B&D (Ohmeda)		❑ Cobe		❑ Other: _____
Resistor Flow Rate: **(Specify Quantity)**	***Water Only***	**0.60ml/**min	**0.45ml/**min		**0.30ml/**min		**0.15ml/**min
		Qty:	Qty:		Qty:		Qty:
	Air/Water	**0.08ml/**min	**0.04ml/**min		**0.02ml/**min		**0.01ml/**min
		Qty:	Qty:		Qty:		Qty:

UPGRADES (for standard resistors, blue plastic pinch clamps, water reservoir and/or mounting plate):

- ❑ Compact Resistors (replaces Standard Resistors)
- ❑ Pinch Valves (replaces Blue Plastic Pinch Clamps)
- ❑ Water Reservoir (replaces 1000mL Water Reservoir) **Please Select One:** ❑ 500mL ❑ 250mL
- ❑ MK III Mounting Plate (replaces Standard Plate) ❑ Medtronic ❑ Sandhill ❑ Other: _____

OPTIONAL COMPONENTS:			
High Pressure Regulator: **(25,000 kPa / 3700 Psi)**	❑ for Air Bottle (includes extension tube)		
Air Compressor Unit:	❑ 110-115V (60 Hz)	❑ 220-240V ❑ 50 Hz ❑ 60 Hz	**(Supply S/N for upgrading old pumps)** **S/N:**
Extra Water reservoir:	❑ 250 mL	❑ 500 mL	❑ 1000 mL
Dish & Hoop (for MK II only): ❑			
Calibration Pole (for MK III only): ❑			

Note: Custom-made pumps with 2 water reservoirs available upon request.
